Subject: access to contraceptives by employees
Date: Monday, August 15, 2011 8:52:28 PM

Please do not limit a woman's right to contraceptives. Employers may have a different view of contraceptives, but should not force those views on their employees. I respect religious views that disavow contraceptives, but those views should not penalize those employees who do not share those beliefs.

Sincerely,

Felecia Girton
